

MIERUCA

enables you to:

- double search traffic
- find out missing keywords
- evaluate user interaction

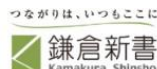

PRODUCT

Faber Company Inc. has more than 10 years of knowledge and experience in the search engine marketing industry. With our expertise and assistance of Toyohashi University of Technology, we invented MIERUCA.

Creating high-quality content that satisfies your users is essential in SEO but takes lot of time and energy. By using MIERUCA, you can uncover important topics and keywords you should have included in your content. You can also easily evaluate how your users read your content through a heat map tool in MIERUCA.

MIERUCA is already used by hundreds of companies in Japan including major brands. Now it's your turn to grab the opportunities!

CLIENTS

What's "MIERUCA"

◆ Website : <http://us.mieru-ca.com/> ◆

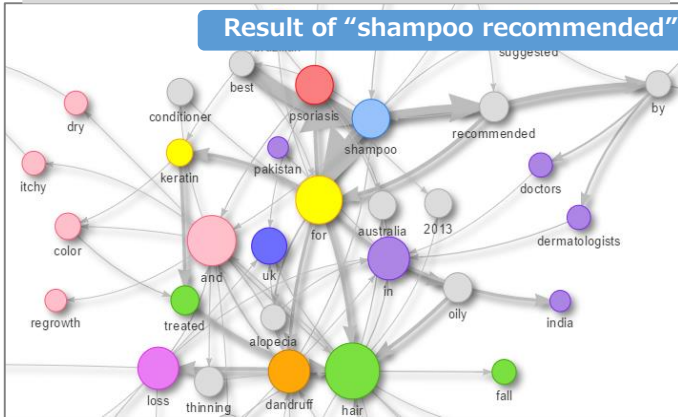

MIERUCA

MIERUCA is a web-marketing tool that helps **keyword research**, **content planning**, and **page optimization** by using **AI (Artificial Intelligence)** and **NLP (Natural Language Processing)**.

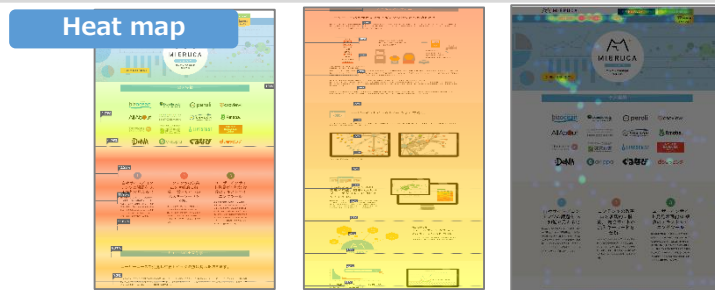

1 Plan: Specify the theme by grouping users' queries. Know user intent to plan what kind of content to make.

2 Create: Extract important keywords by using NLP. Find out what your users are really looking for.

Word Related		Related Keywords
Frequency	Score	Keyword
52	3163.04	hair
31	1704.72	Shampoo
7	429.80	Hair
6	348.64	Hair Shampoo
30	216.33	Conditioner
33	192.42	facebook dialog
21	168.59	Continue Reading Below
12	155.54	products
6	130.85	Dry Hair
6	130.24	dry hair
2	122.80	16 Hair
16	107.30	Styling Product
13	100.70	Color Trends

3 Evaluate: Optimize your page by using heat map. Discover how users interact with your page.

Bag Sponsor and Exhibitor at SMX East 2016!

Faber Company - www.fabercompany.co.jp

Faber Company is one of the leading SEO Agencies in Japan -- providing services of SEO, Link Building, Paid Search, Content Development, Landing Page Optimization, Retail, Consulting, and the Web Marketing Tool, MIERUCA. Faber means "craftsperson" in Latin, and the red line of the Faber logo demonstrates the strong bond and trust between the craftsperson and other employees. At SMX East 2016, we will introduce our product MIERUCA. It uses natural language processing and artificial intelligence technology that helps create high quality content that responds intuitively to user intent.
